

“Urosepsis” does not compute!!!

Did you know the diagnosis “Urosepsis”
can not be coded?

Coders are **required** to obtain documentation to clarify with the
Physician if the diagnosis of “urosepsis” is intended to mean:

(1) Generalized sepsis (septicemia)

OR

(2) Urine contaminated by bacteria, bacterial by-products, or
other toxic material but without complication

Avoid confusion –DO NOT use the term “Urosepsis”

- ✓ Sepsis of urinary origin
or
- ✓ Sepsis resulting from UTI
